General Comments or Valuable Insight

Another big Wed-Thursday Mid-week shuffle.
Another break to nowhere in the Equity Indices.

While many charts are flashing sell signals the markets are not breaking down.
The technical models remain intact.

This just tells me to not reach for the Indices on strength.

I'm looking for a two-way trade today with the lows in the Indices on the Nikkei stabilizing.

We're right back to yesterday's U.S. opening in the Spu's @ 2049-50. It will take sustained price action over this level to extend.
