General Comments or Valuable Insight

Qtrly options expiration is today.
 Baker Hughes Rig count @ 12.00

There is a lot of position squaring going into the OPEC meeting this weekend.

The profit taking in Oil started in London.

30 yr. Bonds have been held hostage in a 1 point range with 166.00 being the top.

Trade what you see today. I would expect two capital flows. One into London's close and then the options game late day.
