GOLD...

Silver...is taking the lead, which will have the metal bulls smile. While the Silver futures are a little rich for most, The SLV ETF is a better choice for sleep.

Do your homework, the risk to own this is 14.80 close.

General Comments or Valuable Insight

Pretty much every major Equity Index put in an ORH day yesterday and is following through today.

DAX is trading above it's 200DMA @ 10,297.
U.S. Equity /Bond spreads is trading at the 200 DMA.

The Equity Indices can pause up here, but a pause is all I'd be looking for.
