General Comments or Valuable Insight

I'm Bullish Equity Indices and Bearish the Bonds going into the week.

A weakening Bond market on an anticipated rate rise has been negative precious metals, supportive of the Dollar and the Financials.

DB...Deutsche Bank @ 18.13 is closing momentum resistance. Pay attention to this as the DAX is trying to break out over its 50-week mvg average.

It's the last trading day of the month. Expect instruments to be marked into tomorrow's U.S. close following their current directions.
