General Comments or **Valuable Insight**

Welcome to potentially the biggest mid-week shuffle of the year.

The Spu's need below 2119 to put in a reversal back down, or 25 points from any extreme.

With a Trump victory you could see a running of the Brexit lows of 1979 in the Spu's, which I deem a buying opportunity.

Euro would need to sustain over 111.25 to turn up.

It's not too late to vote!!!!!!!!!!!!!!
