General Comments or Valuable Insight

The rest of the week will be about the Financials earnings going into Friday.

**For the most part the banks are still hanging in.
If you were worried about downside I'd look at the weekly options as a hedging tool.**

I've never been a fan of buying strength on a Wednesday since I tend to get screwed even if I'm right.

**I'm looking at Humana for an opening trade tomorrow.
The pattern is definitely worth a go.**

The rotation game goes on with the Indices in park.
