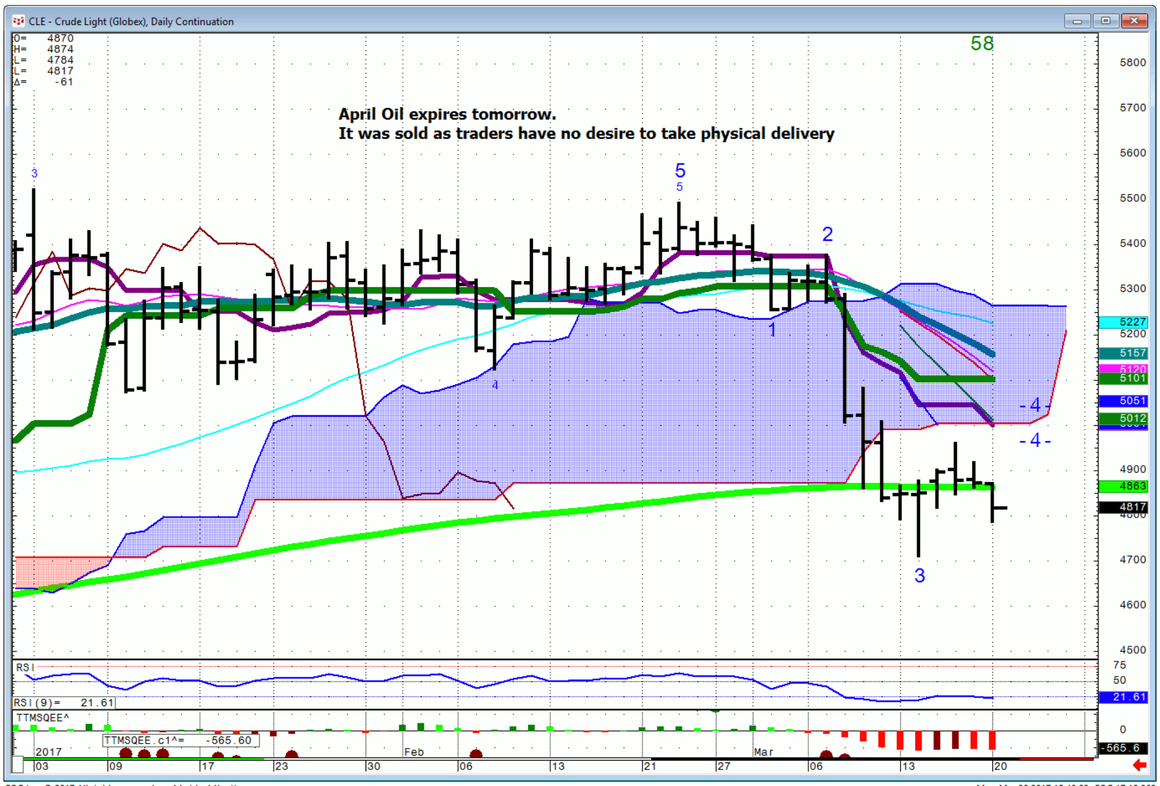
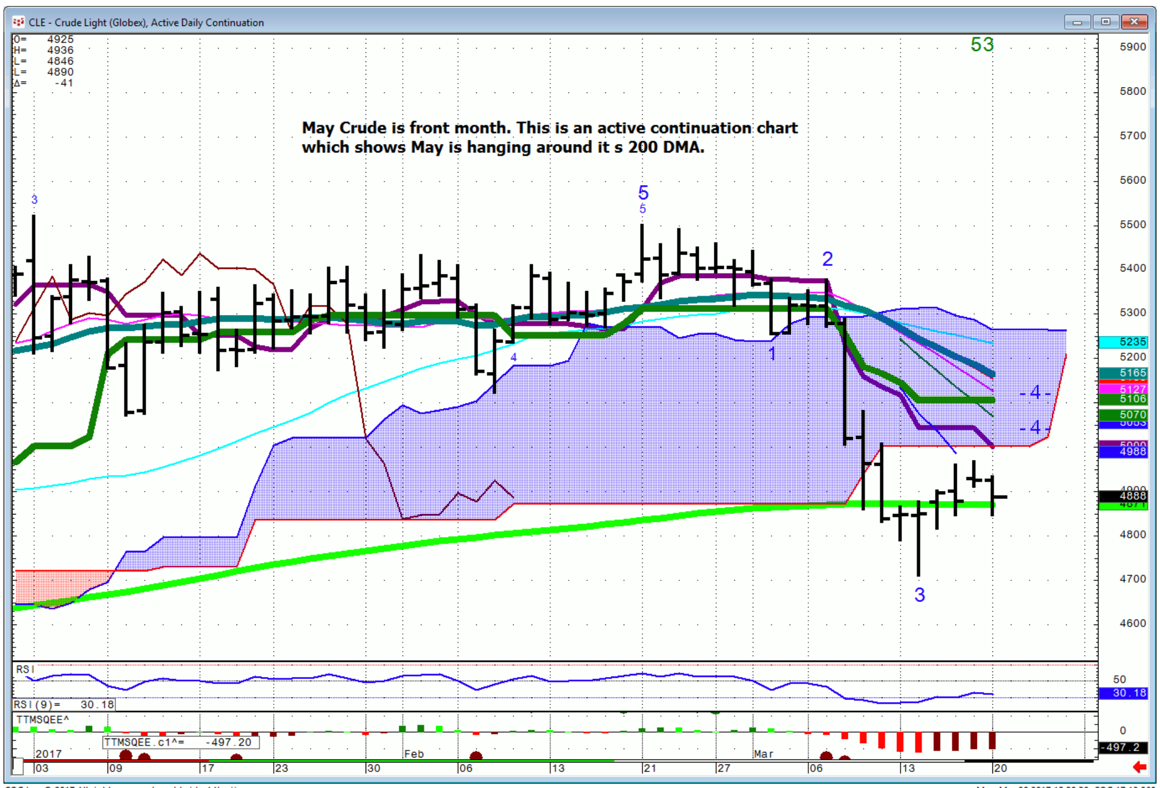
Commodities

Crude…April Daily



Mon Mar 20 2017 15:40:09, CQG 17.12.860

Crude…Active Daily Continuation shows May as lead month.



General Comments or **Valuable Insight**

I'm not changing the Spu's.

Nasd is in its own world. Trade the 5426 closing level.

Individual names trade better than the Indices.

Financials have been getting hit since before the FOMC Rate rise.

I'll be looking to see if they bottom Wednesday into Thursday when the Bond Futures expire.

Mid-Week shuffle potential.
