Gold...1256 is the near inflection level. If the Indices sell off one would look to manage a small long against the level for a bounce despite the ORL day.

General Comments or Valuable Insight

The mid-week shuffle was all that and more.

Tomorrow into Friday will be telling for the board.

We need a little digestion to see what patterns, sectors and themes will follow through.

The QID position was not added to as the Nasd 100 and QID did not put in the requisite reversal pattern to elect the order.

Leave the stop as is and see what develops.
