### **General Comments or Valuable Insight**

**Today will be the last day of trading for July, with most market participants ready to become road warriors after Friday's payrolls report.**

**We've reduced risk going into August. There are still a few earnings plays you can roll the dice on.**

**The names we've featured have done extremely well. We're happy with OXY as a surrogate long in the Oil space.**

**Asian investors should keep their eyes on TM. Toyota Closed Friday on its 200 DMA with high RSI's.**

**August is shaping up to be a name specific/level specific trade.**

**The Dollar Index is caught in a 1-figure range. I'm not interested in being involved in Month end markings.**
