Euro...the swings in the D-Mark, now the Euro have not changed since I started trading it on blackboards in 1974. The only change is the names of the ill informed media, which continues to pontificate on the Dollar.

Commodities

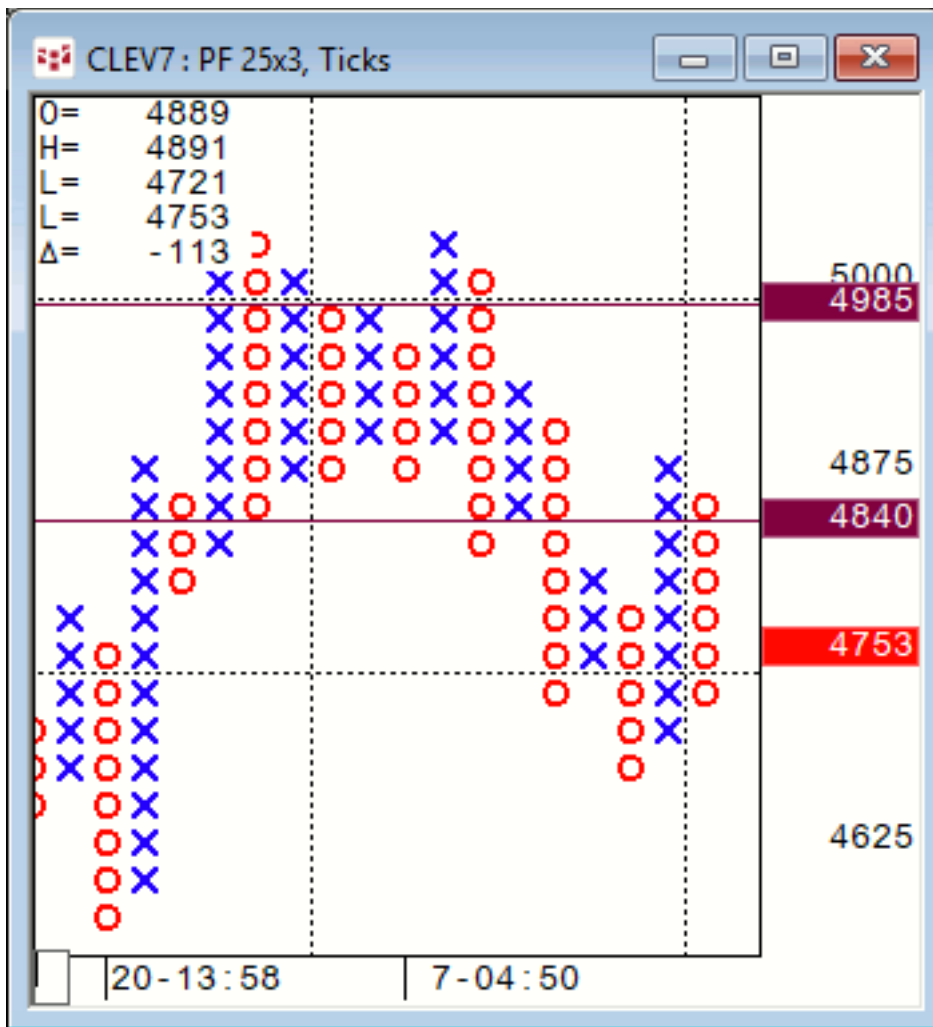

GCEZ...the short term P&F confirms sustained price action and a close over 1307 is needed for another 30 dollars

GDXJ...

Oil...September oil expires tomorrow. The P&F shows we are at the bottom of value. Be patient for a new signal.
