General Comments or Valuable Insight

Financial earnings start Wednesday A.M. before the opening and go through Friday.

If one were looking for some back and fill in the Indices, which I am, this would be as good a catalyst as any for near term profit taking.

Pretty much all the major U.S. Indices gave way to late selling with potential ORL's only to rebuffed and stuffed by the Bulls.

If we now see some back and fill it will be without a potential topping pattern, which would leave way for further gains.
