General Comments or **Valuable Insight**

I’m not involved with the earnings lotto, however good #’s from Goldman in the A.M. should keep a bid tone to Citigroup.

The near-term risk to own C is 70.90.

Copper should run into resistance @ 3.33 the first time up.

Transports were under duress with Trump bashing NAFTA.

IYT had pattern follow through into support. If you can handicap his rhetoric you can trade it.

Watch EWW if NAFTA gets resolved. It would cause a good oversold bounce.
