General Comments or **Valuable Insight**

Today was the first day in a week that Spu/Bond closed lower than the previous session.

The Precious Metals attracted a lot of bottom fishing today.

The stock rotation favored Nasd 100 led by FANG & Semi's. If the Nasd 100 is to achieve its swing count of 6106 these will lead.

I'm still of the mindset that we'll get some back and fill. Ideally this would lead to a retest of 2500.
