General Comments or Valuable Insight

Risk on led by China names in Nasdaq.

Nasd 100 is firm above 6480 with a 6570 initial target.

Today's Focus is on individual names with specific risk profiles.

Obviously all the Risk spreads negated their negative patterns, so I will remain Bullish the Indices.

FYI..Germany and Euro Stoxx 50 held important support before rebounding.

Tomorrow is another day and we'll see what leads and who has bullets left to buy with.
