General Comments or Valuable Insight

ECB in the A.M.

I'm not handicapping that race other than to say it should be volatile for the Currencies and Bonds.

Yra posted some thoughts last night, which are definitely worth reading.

His blog is currently free.

Just sign in to receive his notes.

Chart Lines....Ichimoku

Green Bright...200 DMA **Aqua** 50 DMA **Blue Green** 21 DMA **Fuchsia** 18 DMA **Yellow** 10 SMA

These are simple moving averages. When you roll a chart to weekly or monthly the averages are simple weekly or monthly mvg averages.

The **reddish purple** is an embedded Imoku line which acts as momentum.

The **leaf green** is an embedded Imoku line which calculates 50% retraces.

Brown line is where the Macd with histogram crosses. The line shows the visual on every time frame so you don't have to guess looking at the price of the cross in a line study.
