General Comments or Valuable Insight

Mid-Week Shuffle Just classic.

**I sold all risk right after the opening.
Still like the Pot names, just not a fan of the premium
crush.**

**Spu's & Nasd gave relief reversals on their respective
P&F's.**

FYI; the 50X3 Spu is turning @ 37 points.

Service names and Biotech trade well.

Stick with the sectors and names that are rewarding.

**I'm looking for a strong end to the month in the service
names.**

**Amazon is starting to lift its head. Pay attention for this
name can rally the Nasdaq on its own.**

**Dr. Copper, Amazon and the Spu/bond spread will
telegraph the next move.**

Room Trades;

Long ES @ 2791.50/ Using a breakeven stop

Room trades;

Sold ACB @ 7.69

Sold CRM @ 162.80

Sold CRON @ 21.73

Sold CRON March 22 Call @ \$1.04

Sold V March 8 148 Call @ \$.90

In general I do better with straight stock than going for the leverage with the options.

Many names to not lend themselves to options

**Judd's room is open.
Invites are sent before NYSE Opens.**

Please check your spam folder or your Google calendar if you don't see an invite.

Not there? Just let me know in the A.M. to get one when the room opens.

We begin answering questions around 8:20 CDT.

I will review any instrument available on my platform and tell you what if anything I see

These are simple moving averages. When you roll a chart to weekly or monthly the averages are simple weekly or monthly mvg averages.

The **reddish purple** is an embedded Imoku line which acts as momentum.

The **leaf green** is an embedded Imoku line which calculates 50% retraces.

Brown line is where the Macd with histogram crosses. The line shows the visual on every time frame so you don't have to guess looking at the price of the cross in a line study.
