Both have come up to resistance. You have to be patient to see if they continue.

Regardless of price Monday I'm looking for a strong mid-week-shuffle into the qtrly close.

New Matrix sheets will be sent late Thursday.

These are simple moving averages. When you roll a chart to weekly or monthly the averages are simple weekly or monthly mvg averages.

The **reddish purple** is an embedded Imoku line which acts as momentum.

The **leaf green** is an embedded Imoku line which calculates 50% retraces.

Brown line is where the Macd with histogram crosses. The line shows the visual on every time frame so you don't have to guess looking at the price of the cross in a line study.
